# 4TH NORDIC SYMPOSIUM IN MULTIDIMENSIONAL CHROMATOGRAPHY

Key note speakers
Oral presentations
Poster presentation

## FIVE SCIENTIFIC THEMES

**Peak capacity is not enough: what does multidimensional chromatography need to prove?**

**Can GC×GC and LC×LC become quantitative routine methods?**

**AI and multidimensional chromatography: hype, help, or necessity?**

**Do we need better instruments, better software, or better questions?**

**What should the next generation of multidimensional chromatographs look like?**

## AUGUST 24–27, 2027
## FAROE ISLANDS

**Combine the symposium with our PhD course:**
**Advanced Analytical Chemistry: Practical Multidimensional Chromatography**
